INDUSTRIAL SWING DOOR

EXPECT MORE FROM YOUR SWING DOOR

Quality and long service life – those characteristics set our Industrial Swing Doors apart from the rest. Unlike traditional hollow metal doors, our doors are built to withstand the abuses of industrial environments and continuous use in all weather conditions.

DOORS THAT WORK BETTER AND LAST LONGER

- Reduce maintenance with long-lasting construction that is unaffected by high winds, continuous use or weather conditions
- Fit any application - 100% customizable by size and design, with single swing, paired swing and swing/slide combinations available
- Ship quickly (in-stock sizes)
- Feature carbon or stainless steel construction with a structurally welded internal frame
- Come pre-hung on a frame from PS Access Solutions™ or can be welded onto an existing steel door frame
- Boast a proven track record in power generation and industrial facilities
- Include a five-year warranty to ensure your peace of mind

**5
Year
Warranty**
