EDGEHALT® FULL HEIGHT LADDER SAFETY GATE (LSGF)

Full-Height Protection, Zero Compromises

The patent-pending, new EdgeHalt® Full Height Ladder Safety Gate has been redesigned by combining two of our flagship EdgeHalt Ladder Safety Gates – one standard gate on top and one traveler gate with an integrated toeboard below – to provide a complete OSHA- and ANSI-compliant full-height safety solution. It features innovative Slam-Proof® technology that closes each gate in a quiet and controlled manner, extending the life of the product. Plus, it features up to 10" of adjustability, allowing you to cover a range of openings from 15" to 50" with just four gate sizes. Best of all, the springs have been tested to more than one million cycles and are guaranteed for the life of the gate.

Improves Safety:

- Provides safety coverage from the top rail to the floor
- 5" safety toeboard provides increased edge protection from falling objects
- Engineered and tested to meet or exceed OSHA, ANSI and Canadian COHS standards (OSHA 1910.29; OSHA 1910.28; ANSI A1264.1-2017; ANSI A14.3; Canada COHS SOR-86-304 Part II)

Easy Installation:

- 10" of adjustability make it simpler to install in different openings around your facility
- Simple design with Quick Start Guide makes it easy to install in minutes

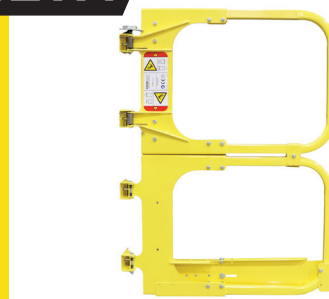

Durable And Convenient Construction:

- Four gate sizes cover a range of openings from 15" to 50", with up to 10" of adjustability per gate
- Swings left or right to fit your building requirements
- Stainless steel springs
- Available in powder coat yellow (PCY), 304 stainless steel seal welded (304SW) or hot dipped galvanized (GAL) finishes

Optional Accessories:

- Lock-Out Kit allows added security
- Stand-Off Mounting System creates a landing space for personnel to transition through the ladder safety gate

NEW!

EdgeHalt® Posi-Stop Full Height Ladder Safety Gate (LSGPSF)

All the same great features as the standard full-height model but ideal for when you don't have a regular railing or surface for a strike plate to stop or rest in place against.
