

**Standard Technical Data for the Vertical Mezzanine Gate**

- 1. Mezzanine Gate Operation to be one of the following;
  - a. Manual; counterweighted for ease of operation.
  - b. Electric; Electric drive system, 115 VAC, (24 VDC Secondary), 60 HZ, 1/3 HP. Operator control panel includes Timer-to-Close capability, Obstruction Sensing and one (1) three-button (Open-Stop-Close) control panel mounted push button station, and one (1) remotely located wall mount 3-Button push button. Includes Amber color WARNING strobe light, activates when gate is in operation.
  - c. Pneumatic Operation/Electric Controls; Pneumatic Drive Cylinder requires 90-100 psi clean and dry air, provided by others. Operator control panel requires 115 VAC (24 VAC Secondary), 60 HZ, includes Timer-to-Close capability, and two (2) remotely located wall mount single push button. Includes Amber color WARNING strobe light, activates when gate is in operation.
  - d. Pneumatic Operation/Pneumatic Controls; Pneumatic Drive Cylinder requires 90-100 psi clean and dry air, provided by others. Includes two (2) remotely located two button (Open-Close) push button station.
- 2. Mounting Location on mezzanine to be one of the following;
  - a. Deck Mount
  - b. Face Mount
- 3. Gate Section; to be factory welded frame work with horizontal top rail. Includes mid-rail, 4" high toe board, 42" overall height, and vertical members not to exceed 8' on center. Gate to have a minimum of four (4) non-corrosive guide blocks, no lubrication required. Gate shall meet or exceed Federal OSHA standard for standard railings at the time of manufacture relative to dimensions and loading. To be fabricated from one of the following;
  - a. Mild Steel
  - b. 304-2b Stainless Steel
  - c. 316L Stainless Steel
- 4. Vertical Guide Column Assembly; shall consist of formed columns of the same material as gate section, 120" standard height, prepped for the gate operating hardware and applicable mounting brackets. Standard Vertical Guide Column assemblies shall be fabricated to allow gate to bypass idler sheaves providing for a standard Clear Opening Height of 84".
- 5. Finish to be;
  - a. Mild steel mezzanine gates; exposed surfaces to be Powder Coat Safety Yellow. Hardware/fasteners to be Zinc plated.
  - b. Stainless steel mezzanine gates (304-2b or 316L); mill finish, acid washed. Interfering welds ground smooth, not polished. Hardware/fasteners to be Stainless Steel.
- 6. Warranty to be One (1) Year from date of shipment, finish excluded.
- 7. Available Options:
  - a. Electric and Pneumatic Operation/Electric Controls: Remote Controls, includes one (1) Universal Co-Axial Receiver and one (1) keypad transmitter.

**Exclusions:**

- 1. All electrical wiring or airline piping to and between all components by others.
- 2. Structural Review of mezzanine to accept loading and anchor design by others.

**NOTES:**

- See product Technical Data for details.
- Standard Column Height provides for 84" of Clear Opening Height below gate when in the full open position.
- Stock Gates are Mild Steel with Powder Coat Yellow Finish and Standard (120") Column, ONLY.
- If greater or less than 84", Custom Column Required.
