

SAFETY PROTECTION STARTS HERE

A Safe Worker Is A Better Worker, And Our Products Prove It

Our PS Safety Access™ product offering is a complete line of safety and fall-protection products that help keep employees safe and increase material handling efficiency. Simply put, our safety products are built to ensure that users get to go home each and every night after their work is done. These gates, hatches and doors provide barriers against the everyday workplace dangers that can injure good personnel and hinder productivity.

LADDER FALL PROTECTION

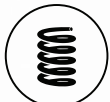

Compliant

Personnel Fall Protection

EDGEHALT® Ladder Safety Gate (LSG)

EdgeHalt® Ladder Safety Gates are ANSI- and OSHA-compliant, self-closing swing gates that help reduce the chances of falls on elevated platforms, mezzanines and ladder ways.

Over 2 Million
Cycle Tested

Drill/Saw
Not Required

CE Marked

Compliant

EDGEHALT® Adjustable Safety Gate (ASG)

This one gate size is flexible enough to fit a large range of guardrail openings (18"-36"), reducing the need for precise measurements. Its guaranteed-for-life springs have been tested to withstand over two million cycles. It is CE Marked and meets OSHA, ANSI, Canada OHS and CSA guardrail standards to help protect workers from the dangers of elevated guardrail openings.

Compliant

Personnel Fall Protection

EDGEHALT® Paired Ladder Safety Gate (LSGDBL)

This self-closing swing gate provides 42" top- and mid-rail protection, minimizing the chance of a fall on elevated platforms, mezzanines or ladder ways. It's ideal for spaces where there is little room for standard swing gates.

Compliant

Personnel Fall Protection

EDGEHALT® Full Height Ladder Safety Gate (LSGF)

Similar to our EdgeHalt Ladder Safety Gate, this full-height version is self-closing to ensure that protection is in place when it is needed most. The EdgeHalt Full Height Ladder Safety Gate provides a 42" top rail, mid-rail and 5" safety toeboard for increased personnel protection.

SAFETY GATE ACCESSORIES

Simple
Installation

Strong,
Stable Grip

GRABSAFE® (GBS)

Increase stability by providing horizontal grab bars for the step-through portion of your fixed ladder. Large grab rungs provide a sturdy grip even with gloved hands.

Simple
Installation

Personnel Fall
Protection

LADDER SAFETY GATE STAND-OFF MOUNTING SYSTEM (LSG-STNDOFF)

This system is an optional railing attachment that creates increased platform space on the mezzanine edge and provides a steadying point on the platform for personnel to utilize when transitioning through the Ladder Safety Gate.

LADDER SAFETY GATE ADAPTER BRACKET

Compatible with the EdgeHalt® Single or Full Height Ladder Safety Gate, this adapter bracket is for customers with unique mounting needs.

LARGE PIPE ADAPTER
BRACKET (LP-2204)

FLAT BAR ADAPTER
BRACKET (FB-2205)

ANGLE IRON ADAPTER
BRACKET (AC-2206)

(514255)

PAIRED LADDER SAFETY GATE FLAT SURFACE MOUNT KIT

This kit, compatible only with the EdgeHalt® Paired Ladder Safety Gate, is for mounting onto flat surfaces such as a wall, angle iron or flat bar.

ROOF HATCH SAFETY

Simple
Installation

Strong,
Stable Grip

HATCHGRIP® (HTG-PCG)

HatchGrip® provides ladder extension grips that extend beyond your hatch. These horizontal rungs ensure a firm, stable grip for employees exiting and entering a roof hatch, providing a safe and easy rooftop transition.

ANSI &
OSHA
Compliant

Strong,
Stable Grip

HATCHSAFE® (HSF)

HatchSafe® is a full-perimeter self-closing railing system complete with integrated Ladder Safety Gate and HatchGrip® horizontal grab bars. This product provides permanent, four-sided protection designed specifically for your roof hatch opening, ensuring a safe, stable grip for employees entering and exiting the roof hatch.

EQUIPMENT GUARDING

EDGESAFE™ *Smart Gate* (SG)

A compact version of our flagship EdgeSafe™ Loading Dock Safety Gate, the customizable Smart Gate can improve safety around walkways, help with crowd control and guard hazardous equipment. It operates smoothly with one hand.

Compliant

Smooth Gate
Operation

MATERIAL HANDLING SOLUTIONS

EDGESAFE™ *Loading Dock Safety Gate* (LDSG)

Reduce the danger of falls from docks, bays or exposed edges with this EdgeSafe Loading Dock Safety Gate. This gate operates smoothly, utilizing a slam-proof dampening system (no pinch points).

Compliant

Personnel Fall
Protection

PALLET RACK SAFETY GATE (PRG)

This safety gate is a self-closing gate system designed to fit existing rack systems. After palletized material is forklifted through the gate and the material conveys away from the opening, the spring-loaded gate self-closes along the racking edge.

Compliant

Personnel Fall
Protection

MATERIAL HANDLING SOLUTIONS

SAFEMEZZ360™ (SMZ)

SafeMezz360™ is the all-angles way to protect your team on the mezzanine. This ANSI- and OSHA-compliant fall-protection product creates a foolproof enclosed area that helps keep workers safe. Its slam-proof, cushioned dampening system keeps the gate from dropping on toes and prevents noisy slamming. Includes 4" safety toeboard.

Compliant

Personnel Fall Protection

SAFEMEZZ®

Vertical Gate

(MGV)

Compliant

Personnel Fall Protection

Improve material handling efficiency with our SafeMezz® Vertical Gate. Open the gate to forklift materials to your elevated space and close the gate to protect employees from dangerous workplace falls. Ideal for mezzanines with limited side room and deck space.

SAFEMEZZ®

Horizontal Gate

(MGH)

Compliant

Personnel Fall Protection

Material handling is more efficient with our SafeMezz Horizontal Gate. Forklift materials to your elevated space and slide the gate closed to protect employees from dangerous workplace falls. This horizontal gate is ideal for mezzanines with limited headroom.

SAFEMEZZ®

Downward Gate

(MGD)

Compliant

Personnel Fall Protection

Once installed on your mezzanine, this gate opens and closes as needed to improve material handling efficiency. The SafeMezz Downward Gate is ideal for buildings with limited side or headroom and is available with pneumatic/electric or pneumatic/pneumatic operation.

SAFEMEZZ®

Pallet Gate

(PLG)

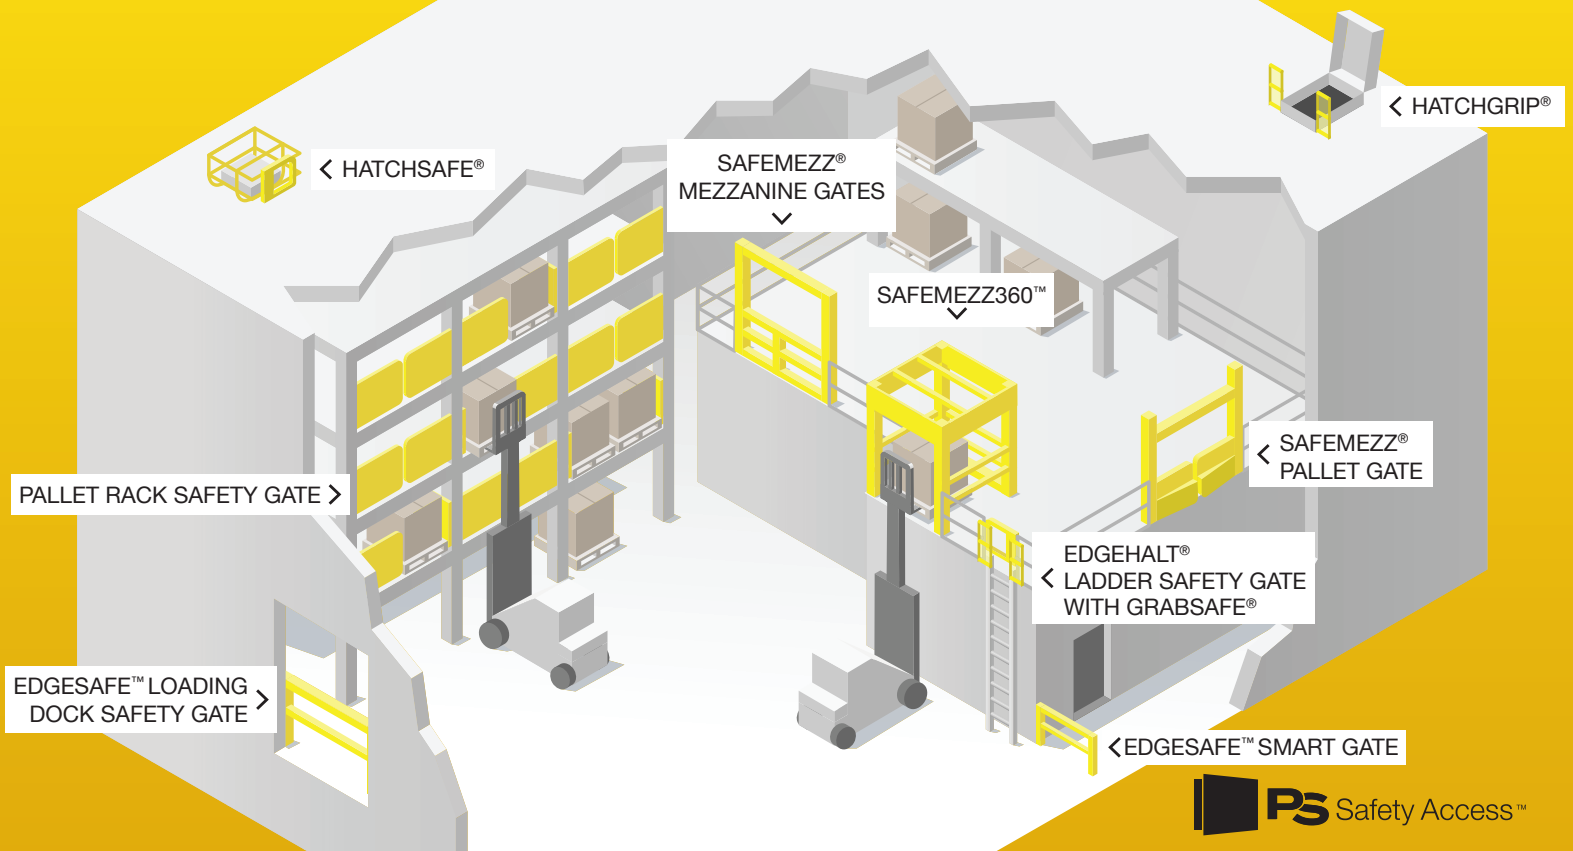

Self-Closing

Compliant

Forklift your pallet of materials through this self-closing gate and back away. Our SafeMezz Pallet Gate closes up against your material, effectively protecting the mezzanine edge.
