Easy To Assemble

ARMORBOSS™ CUBICLE SHIELD (ABO)

EXTENDING PROTECTION AND PRIVACY BEYOND THE CUBICLE

ArmorBoss™ Cubicle Shields improve workplace safety and functionality, providing peace of mind to workers and visitors alike. Developed to maximize the safety of personal space, these shields clasp to the top of existing cubicle walls, extending the cubicle and protecting the occupant – as well as those nearby – from the transmission of germs. Constructed of corrugated, clear acrylic plastic, these sturdy sneeze guards effectively transform cubicles into protected, private, productive work environments.

- **Limits the transmission of germs between work stations**
– The ArmorBoss Cubicle Shield blocks the germs that result from sneezing and coughing, inhibiting their transmission between cubicles and across the workplace
- **Perfect for increasing workplace peace of mind** – When both staff and visitors feel safe, everything runs more efficiently
- **Acts as an extension for existing cubicle walls** – Easily clasps to the top of cubicles for added height and protection
- **Corrugation adds privacy** – Unique construction partially obscures one's ability to see through the ArmorBoss Cubicle Shield, adding privacy in and around the cubicle
- **Made from durable, clear acrylic plastic** – This material stands up to years of use and is easy to keep clean
- **Quick and easy to assemble** – Simply clasp the ArmorBoss Cubicle Shield to any existing cubicle wall for instant protection and privacy
- **Available in two stock sizes** – ABO-3612 (36" width x 12" height) and ABO-4812 (48" width x 12" height)
