

KEEPING FACE-TO-FACE COMMUNICATION SAFE

Protection For Interaction And Collaboration

You can't avoid the unexpected, but PS Public Protection™ products can ensure that you're ready when it arrives. Threats come in all sizes, and a powerful natural disaster and a microscopic virus can both change how you do business. We'll help you protect your employees, your customers and your bottom line. These products will help to make your public spaces and workplaces safer and more prepared for the unknown.

Personal Protection

Easy To Assemble

Versatility

COUNTER / TABLE SHIELDS

ARMORBOSS™

Countertop Shield

(ABC)

The ArmorBoss™ Countertop Shield allows for in-person communication while limiting the transmission of germs from sneezes or coughs. This clear acrylic shield serves as an excellent solution for maintaining your customer relationships, all while keeping a safe distance and ensuring your business stays healthy. It features an opening on the bottom for the safe, contact-free exchange of materials.

ARMORBOSS™

Linear Table Shield

(ABT)

This is a rugged acrylic shield that brings safe, face-to-face communication to places where people meet around a table – all while limiting the transmission of germs between those involved. This protective shield allows customers and employees to safely carry on a conversation and exchange materials across a table in a contact-free manner. Multiple table shields can be used to protect larger meetings on larger tables.

ARMORBOSS™

X-Shape Table Shield

(ABX-4824)

This unique product allows for customers or workers to share a small table and carry on a conversation, while simultaneously limiting the transmission of germs from coughing or sneezing. Its unique design joins two clear acrylic plastic protective shields to form an X-shape, making it perfect for use at round tables.

ARMORBOSS™

Counter Stand Shield

(ABR-2420)

This versatile counter shield utilizes a repositionable, clear acrylic shield and comes equipped with two base options: affixed or freestanding. It can either be attached to a counter permanently or moved freely from location to location. This shield provides protection from germs (sneezing or coughing), and can act as a particle barrier for machine guarding as well.

FLOOR STAND SHIELD

ARMORBOSS™

Floor Stand Shield

(ABF-2424)

This rugged shield allows face-to-face communication between two standing individuals while limiting the transmission of germs. Designed with versatility and personal separation in mind, it is easy to move from one location to another and features an adjustable base that allows the protective acrylic shield to be raised to a maximum height of 78.5 inches. It can serve as protection for individuals providing security or working lines at public events and can even act as a particle barrier for machine guarding in an industrial environment. The ArmorBoss Floor Stand Shield is available in one stock size or 100% customizable.

CUBICLE SHIELD

ARMORBOSS™

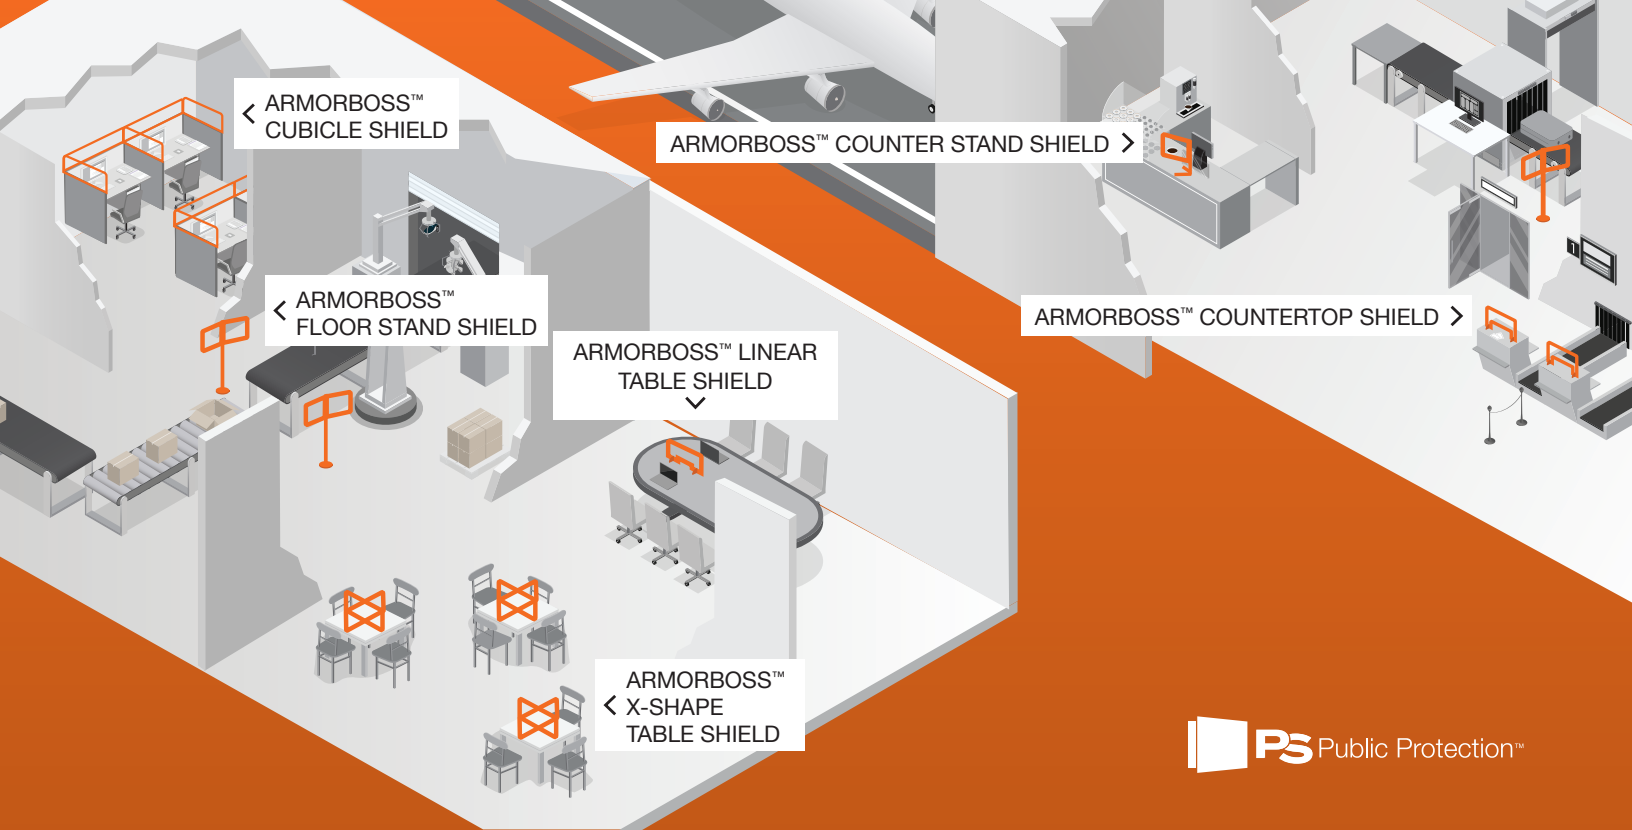

Cubicle Shield

(AB0)

Designed with personal space and separation in mind, ArmorBoss™ Cubicle Shields improve workplace safety and functionality by providing peace of mind to workers and visitors alike. Constructed with corrugated, clear acrylic plastic, these shields clasp to the top of existing cubicle walls, extending the cubicle and protecting the occupant – as well as nearby employees and customers – from the transmission of germs.
